Al-Thawri pointed out in its editorial in today's weekly issue the political developments being witnessed by the Arab area in which the American administration and the reactionary regimes supporting it continue to intensify their plots against our Arab people and their national and progressive regimes and issues topped by the issue of our brave Palestinian people.

It said that it is no secret to any one that the joint American, Sudanese and Somali military manouevr es which wil l continue for nearly two weeks and will cover extensive areas beginning with the borders of the Libyan Jamahirya, then Bab-al-Mandab in the south and ending with the Arabian Gulf entrance and particularly in the area adjacent to Democratic Yemen, aim as announced by the American officials more than once as an interference force for protecting the American oil interests in our Aral area.

Al-Thawri explained in this respect the world reactions by a number of peoples and countries of the area and the public opinion in the countries of the Socialist co mmunity and Europe against the insolance and insistance of the American administration to organise these manouevres in this part of the world which is regarded as one of the most tense areas. It said that this places the forces and countries of the area, apart from their different social systems, before the responsibility of confronting them in view of the danger and instability posed to the peoples of the area.

Al-Thawri hinted that Ali Nasser's visit to the sister States of Bahrain and Qatar, come under such complicated conditions to reflect the eagerness of Democratic Yemen to ensure a greater portion of conditions of coordination and cooperation between the Arab regimes for confronting the imperialist and zionist
